

## TREE LIST

The following list of trees was developed with assistance from the Missouri Department of Conservation and the Adair County MU Extension to provide property owners with suggestions for tree plantings on both private property and in the City of Kirksville's Right-of-Ways. This list was developed to include trees that are appropriate for Kirksville's climate. This list will be updated to include new cultivars, or to remove species when appropriate. Other trees may be planted that are not listed below, provided that they are not included in the Do Not Plant List.

### Suggested Tree Planting List:
